IT'S PERSONAL

PRIVATE INCENTIVES

Private incentive travel turns away from fitting the program to a group of diverse and mixed interests.

Instead it focuses on the ambitious winner, respected achiever or valued partner, rewarding them with highly personalized and engaging incentive travel programs.

WHY PRIVATE INCENTIVES TRAVEL?

CHOICE

The secret of individual incentives lies in rewarding the winners with whatever they really like. The travellers are in complete control of choosing their own experiences, transfer options and dining preferences. And the variety of unique, authentic and boutique experiences to choose from is even larger for an individual guest or a small group.

FLEXIBILITY

The travellers have the flexibility to select their travel dates, companions and experiences, giving them a new level of independence and flexibility.

SAFETY

In the times when safety and health are of paramount importance, individual incentives make the travel decisions easier. When one can travel on its own, with a partner or close family, health and safety concerns lessen. At the same time, Intours DMC ensures for a list of measures to maintain the highest degree of health and safety.

IT'S SO COMPACT

Nowhere in Europe will you find such diversity of landscapes, traditions, culinary experiences and wines on such a small area as in Slovenia.

NATURAL WEALTH

Slovenia is one of the greenest countries in the world and one of the most forested countries in Europe with over a thousand lakes and several thousand animal and plant species.

AUTHENTIC & BOUTIQUE

The diversity of Slovenia brings about unique, authentic and boutique experiences.

SAFE HAVEN

Slovenia is considered to be one of the safest destinations within Europe.
